## USER-DRIVEN SPACE

AsiaWorld-Expo offers over 70,000 square metres of rental space, including 10 state-of-the-art ground level, column-free exhibition and events halls.

Designed to provide convenient access and easy loading and unloading of equipment and materials, our ground-level configuration ensures efficient move-ins, move-outs, and set-ups. The venue's column-free layout further enhances space efficiency and enables barrier-free creativity in event design and construction.

All exhibition and events halls are supported by flexible and user-friendly public areas which enable convenient access; efficient crowd circulation and management; plus easy set-ups of event-related facilities, such as registration counters.

Fully supported by tailor-made and readily available core facilities, our exhibition halls are built to satisfy the most demanding requirements.
